What do we expect from you?

- Review the EdLink360 Dashboards:
 - Data Processing: Verify all extracts for the collection are loaded and there are no record rejections.
 - Data Quality: Verify all ADQs have been reviewed and cleaned up in the local system. Specifically any K ADQs must be cleared before each collection snapshot as these ADQs will keep data out of your counts.
 - Data Validation: Review your final counts and compare them to your local reports to ensure all students, staff and/or classes are counted prior to the snapshot date.
